

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 16.02.2023

Version number 7

Revision: 16.02.2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

| | |
|-----------------|-------------------------------------|
| Trade name: | Acide chlorhydrique 19 à 23% |
| Article number: | 0512 |
| CAS Number: | 7647-01-0 |
| EC number: | 231-595-7 |
| Index number: | 017-002-00-2 Not relevant |

1.2 Relevant identified uses of the substance or mixture and uses advised against

| | |
|--|---|
| Application of the substance / the mixture | No further relevant information available. Decapant descaling |
|--|---|

1.3 Details of the supplier of the safety data sheet

| | | |
|--------------------------------------|--|---------------------------|
| Manufacturer/Supplier: | CHARBONNEAUX BRABANT 52 rue de la Justice 51100 REIMS www.charbonneauxbrabant.com E-mail: chimiereglementation@charbonneaux.com | Tel: +33 (0)3 26 49 58 70 |
| Further information obtainable from: | Service Réglementaire de la société CHARBONNEAUX BRABANT 52 rue de Justice - Z.I. Port Sec 51100 REIMS Tel: 03 26 49 58 70 E-mail: chimiereglementation@charbonneaux.com | |
| 1.4 Emergency telephone number: | ORFILA SAMU : 15 POMPIERS: 18 Pour connaître la liste des médecins de garde contactez le 15. Emergency Number 112 | téléphone: 01 45 42 59 59 |

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

corrosion

Met. Corr. 1 H290 May be corrosive to metals.
Skin Corr. 1B H314 Causes severe skin burns and eye damage.
Eye Dam. 1 H318 Causes serious eye damage.

STOT SE 3 H335 May cause respiratory irritation.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008
Hazard pictograms

The substance is classified and labelled according to the GB CLP regulation.

GHS05

GHS07

Signal word
Hazard-determining components of labelling:
Hazard statements

Danger

hydrochloric acid
H290 May be corrosive to metals.
H314 Causes severe skin burns and eye damage.
H335 May cause respiratory irritation.

Precautionary statements

P101 If medical advice is needed, have product container or label at hand.
P102 Keep out of reach of children.
P260 Do not breathe mist/vapours/spray.
P280 Wear protective gloves / eye protection / face protection.
P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

(Contd. on page 2)

GB

Safety data sheet
according to 1907/2006/EC, Article 31

Printing date 16.02.2023

Version number 7

Revision: 16.02.2023

Trade name: Acide chlorhydrique 19 à 23%

(Contd. of page 1)

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER/doctor.
P403+P233 Store in a well-ventilated place. Keep container tightly closed.
P405 Store locked up.
P501 Dispose of contents / container to a hazardous waste center in accordance with local and national regulations.

Information concerning particular hazards for human and environment:

2.3 Other hazards

Results of PBT and vPvB assessment
PBT:

The product does not, or does not generate, when used, other dangerous properties that would not be classified under Regulation No 1272/2008

vPvB:

The product does not possess PBT property, as defined in Annex XIII of Regulation (CE) n°1907/2006.
Not applicable.

Determination of endocrine-disrupting properties

The product does not possess vPvB property, as defined in Annex XIII of Regulation (CE) n°1907/2006.
Not applicable.

For information on endocrine disrupting properties see section 11.

The product does not contain substances with endocrine disrupting properties.

SECTION 3: Composition/information on ingredients**3.1 Substances**

CAS No. Description
Identification number(s)

7647-01-0

EC number:
Index number:
Description:

231-595-7

017-002-00-2

Mixture: consisting of the following components.

Dangerous components:

CAS: 7647-01-0
EINECS: 231-595-7
Reg.nr.: 01-2119484862-27-XXXX

hydrochloric acid

Met. Corr. 1; H290; Skin Corr. 1B; H314; Eye Dam. 1; H318; STOT SE 3; H335

Specific concentration limits: Skin Corr. 1B; H314: C ≥ 25 %

Skin Irrit. 2; H315: 10 % ≤ C < 25 %

Eye Irrit. 2; H319: 10 % ≤ C < 25 %

STOT SE 3; H335: C ≥ 10 %

≥10- <25%

Additional information:

For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures**4.1 Description of first aid measures**

General information:

Contact staff aider and health, safety and environment service.
Respond quickly

After inhalation:

In case of unconsciousness place patient stably in side position for transportation.
Call a doctor immediately.

After skin contact:

Take affected persons into fresh air and keep quiet.

Immediately rinse with water.

Seek medical treatment.

Immediate medical treatment necessary. Failure to treat burns can prevent wounds from healing.

If skin irritation continues, consult a doctor.

Immediately remove any clothing soiled by the product.

After eye contact:

Rinse opened eye for several minutes under running water. Then consult a doctor.

Verify that the victim bears no lenses - remove.

After swallowing:

A person vomiting while laying on their back should be turned onto their side.

Do not induce vomiting unless directed by a physician

4.2 Most important symptoms and effects, both acute and delayed

Hazards

No further relevant information available.

Danger of gastric perforation.

Risk of burns on prolonged contact

4.3 Indication of any immediate medical attention and special treatment needed

No specific treatment required.

SECTION 5: Firefighting measures**5.1 Extinguishing media**

Suitable extinguishing agents:

All extinguishing agents usable

Use fire extinguishing methods suitable to surrounding conditions.

For safety reasons unsuitable extinguishing agents:

Water

Do not use water stream, as it may spread the fire.

5.2 Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

During heating or in case of fire poisonous gases are produced.

Carbon monoxide (CO)

(Contd. on page 3)

GB

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 16.02.2023

Version number 7

Revision: 16.02.2023

Trade name: Acide chlorhydrique 19 à 23%

(Contd. of page 2)

5.3 Advice for firefighters

Protective equipment:

Carbon dioxide

Mount respiratory protective device.
Wear self-contained respiratory protective device.
Do not inhale explosion gases or combustion gases.
Wear fully protective suit.
Wear gloves and safety glasses
Cool endangered receptacles with water spray.

Additional information

SECTION 6: Accidental release measures**6.1 Personal precautions, protective equipment and emergency procedures**

Mount respiratory protective device.
Wear protective equipment. Keep unprotected persons away.
Avoid contact with skin and eyes
do not touch or walk through spilled.
Do not allow to enter sewers/ surface or ground water.

6.2 Environmental precautions:
6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Use neutralising agent.
Dispose contaminated material as waste according to item 13.
Ensure adequate ventilation.
The water cleaning, towards the sewers is not permitted
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

6.4 Reference to other sections**SECTION 7: Handling and storage****7.1 Precautions for safe handling**

Ensure good ventilation/exhaustion at the workplace.
Open and handle receptacle with care.
Prevent formation of aerosols.
Wear protective equipment required before operation (see Chapter 8)
deferred origin labeling on all containers
Provide for safety showers and eye washes on the workplace

Information about fire - and explosion protection:

Keep respiratory protective device available.
Safety equipment to fight against fire, leak or spill must be easily accessible

7.2 Conditions for safe storage, including any incompatibilities

Storage:
Requirements to be met by storerooms and receptacles:

Store only in the original receptacle.
Use only receptacles specifically permitted for this substance/product.
According to the specific requirements of the storage, provide a diked

Information about storage in one common storage facility:

Do not store with the basics
Keep away from incompatible materials
Store in cool, dry conditions in well sealed receptacles.

Further information about storage conditions:

No further relevant information available.

7.3 Specific end use(s)**SECTION 8: Exposure controls/personal protection****8.1 Control parameters**

Ingredients with limit values that require monitoring at the workplace:

Other substances do not have occupational exposure limit values

CAS: 7647-01-0 hydrochloric acid

WEL Short-term value: 8 mg/m³, 5 ppm
Long-term value: 2 mg/m³, 1 ppm
(gas and aerosol mists)

DNELs**CAS: 7647-01-0 hydrochloric acid**

DNEL (TRA)
Aigue, effets locaux, inhalation: 15 mg/m³ Chlorure d'hydrogène.
Long terme, effets locaux, inhalation: 8 mg/m³ Chlorure d'hydrogène

PNECs**CAS: 7647-01-0 hydrochloric acid**

PNEC (OTH)
PNEC aqua (eau douce) 36 µg/l Chlorure d'hydrogène.
PNEC aqua (eau de mer) 36 µg/l Chlorure d'hydrogène.
PNEC aqua (intermittente, eau douce) 45 µg/l Chlorure d'hydrogène.
PNEC station d'épuration 36 µg/l Chlorure d'hydrogène.

Additional information:

The lists valid during the making were used as basis.

8.2 Exposure controls

The appropriate control measures depend on how the product is used and the potential for exposure
If engineering controls and work practices are not effective in preventing or controlling exposure, then suitable personal equipment, which is known perform satisfactorily, should be used.

(Contd. on page 4)

GB

Safety data sheet

according to 1907/2006/EC, Article 31

Printing date 16.02.2023

Version number 7

Revision: 16.02.2023

Trade name: Acide chlorhydrique 19 à 23%

(Contd. of page 3)

- Appropriate engineering controls
- Individual protection measures, such as personal protective equipment
- General protective and hygienic measures:

No further data; see item 7.

The usual precautionary measures are to be adhered to when handling chemicals.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

Promote the establishment of collective protection over personal safety equipment

- Respiratory protection:

Use suitable respiratory protective device in case of insufficient ventilation.

In case of risk of exposure exceeding the mean exposure value, an appropriate breathing apparatus must be worn by each individual.

Use products in accordance with an approved standard

- Recommended filter device for short term use:

Be aware that filter protection time is limited.

- Hand protection

Protective gloves

norme EN374

Regularly change gloves

Check the permeability prior to each renewed use of the glove.

Selection of the glove material depending on the penetration times, rates of diffusion and the degradation. It should be borne in mind that the resistance of a glove is influenced by factors such as the temperature of the product, its concentration, the thickness of the glove, the dipping time. Maintain chemical risk demand also know all other parameters specific to the workstation (mechanical risk, thermal, dexterity required handling of abrasive parts).

Refer to the information on the chemical resistance of glove manufacturer of each and conduct a test to determine if the glove is suitable to the conditions of actual use.

- Material of gloves

PVC gloves

multilayer gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Recommended thickness of the material: \geq selon fabricant

- Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. It should be noted that the sustainability of chemical-resistant gloves may be considerably shorter than the penetration time measured by the EN374 standard due to the many specific exterior effects workstation.

Value for the permeation: Level \leq selon fabricant

- Eye/face protection

Tightly sealed goggles

- Body protection:

Protective work clothing

SECTION 9: Physical and chemical properties**9.1 Information on basic physical and chemical properties**

- General Information

- Colour:

Colourless

- Odour:

Characteristic

- Odour threshold:

Information not available

- Melting point/freezing point:

Undetermined.

- Boiling point or initial boiling point and boiling range

85-108 °C (185-226.4 °F)

- Flammability

Not applicable.

- Flash point:

Not applicable.

- Decomposition temperature:

Not determined.

- pH

<1

- Viscosity:

- Kinematic viscosity

Not determined.

- Dynamic at 20 °C (68 °F):

1.9 mPas

- Solubility

- water:

Soluble.

- Partition coefficient n-octanol/water (log value)

Chapter 12

- Vapour pressure at 20 °C (68 °F):

23 hPa (17.3 mm Hg)

- Density and/or relative density

- Density at 20 °C (68 °F):

1.0309 g/cm³ (8.6029 lbs/gal)

- Relative density at 20 °C (68 °F)

1.13

- Appearance:

- Form:

Fluid

- Important information on protection of health and environment, and on safety.

- Auto-ignition temperature:

Product is not selfigniting.

- Explosive properties:

Product does not present an explosion hazard.

- Solvent content:

0.00 %

- Information with regard to physical hazard classes

- Explosives

Void

according to 1907/2006/EC, Article 31

Printing date 16.02.2023

Version number 7

Revision: 16.02.2023

Trade name: Acide chlorhydrique 19 à 23%

(Contd. of page 4)

| | |
|---|-----------------------------|
| · Flammable gases | Void |
| · Aerosols | Void |
| · Oxidising gases | Void |
| · Gases under pressure | Void |
| · Flammable liquids | Void |
| · Flammable solids | Void |
| · Self-reactive substances and mixtures | Void |
| · Pyrophoric liquids | Void |
| · Pyrophoric solids | Void |
| · Self-heating substances and mixtures | Void |
| · Substances and mixtures, which emit flammable gases in contact with water | Void |
| · Oxidising liquids | Void |
| · Oxidising solids | Void |
| · Organic peroxides | Void |
| · Corrosive to metals | May be corrosive to metals. |
| · Desensitised explosives | Void |
| · Additional information | 0.0 g/l |

SECTION 10: Stability and reactivity

| | |
|---|--|
| · 10.1 Reactivity | No further relevant information available. |
| · 10.2 Chemical stability | |
| · Thermal decomposition / conditions to be avoided: | No decomposition if used according to specifications. |
| · 10.3 Possibility of hazardous reactions | Corrosive action on metals. violent and exothermic reaction with basic products |
| · 10.4 Conditions to avoid | No further relevant information available. |
| · 10.5 Incompatible materials: | Alkaline hypochlorite Bases |
| · 10.6 Hazardous decomposition products: | No dangerous decomposition products known. |

SECTION 11: Toxicological information

| | |
|--|--|
| · 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 | |
| · Acute toxicity | Based on available data, the classification criteria are not met. |
| · Oral: | Available data indicates that classification criteria are not met. |
| · Dermal: | Available data indicates that classification criteria are not met. |
| · Inhalation: | Available data indicates that classification criteria are not met. |
| · Skin corrosion/irritation | Causes severe skin burns and eye damage. |
| · Serious eye damage/irritation | Causes serious eye damage. |
| · Sensitization: | Based on available data, the classification criteria are not met. |
| · Germ cell mutagenicity | Based on available data, the classification criteria are not met. |
| · Carcinogenicity | Based on available data, the classification criteria are not met. |
| · Reproductive toxicity | Based on available data, the classification criteria are not met. |
| · STOT-single exposure | May cause respiratory irritation. |
| · STOT-repeated exposure | Based on available data, the classification criteria are not met. |
| · Aspiration hazard | Based on available data, the classification criteria are not met. |
| · 11.2 Information on other hazards | |
| · Endocrine disrupting properties | |
| · None of the ingredients is listed. | |

SECTION 12: Ecological information

| | |
|--|--|
| · 12.1 Toxicity | |
| · Aquatic toxicity: | Information not available No further relevant information available. |
| · 12.2 Persistence and degradability | |
| CAS: 7647-01-0 hydrochloric acid | |

| Non applicable | |
| · 12.3 Bioaccumulative potential | |
| CAS: 7647-01-0 hydrochloric acid | |
| Log Pow 0.25 (OTH) | |
| · 12.4 Mobility in soil | No further relevant information available. |
| · 12.5 Results of PBT and vPvB assessment | |
| · PBT: | The product does not possess PBT property, as defined in Annex XIII of Regulation (CE) n°1907/2006. Not applicable. |

(Contd. on page 6)

GB

Safety data sheet
according to 1907/2006/EC, Article 31

Printing date 16.02.2023

Version number 7

Revision: 16.02.2023

Trade name: Acide chlorhydrique 19 à 23%

(Contd. of page 5)

· vPvB:

The product does not possess vPvB property, as defined in Annex XIII of Regulation (CE) n°1907/2006.
Not applicable.

· **12.6 Other adverse effects**· Additional ecological information:
· General notes:

Do not allow product to reach ground water, water course or sewage system.
Must not reach sewage water or drainage ditch undiluted or unneutralised.
Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

SECTION 13: Disposal considerations· **13.1 Waste treatment methods**

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

Must be specially treated adhering to official regulations.

For the handling of waste, take the precautions mentioned in Chapter 7 and 8

Reuse or recycle where possible

Otherwise, incineration using methods recommended

Data on the use by the cosommateur are needed to determine the waste classification

· Waste disposal key:

· Uncleaned packaging:

· Recommendation:

Packagings that may not be cleansed are to be disposed of in the same manner as the product.
empty containers may contain hazardous residues
Do not remove the label on the package until it is cleaned
Do not treat the empty packaging as a household waste.
Do not incinerate sealed packaging

· Recommended cleansing agents:

Water, if necessary together with cleansing agents.

SECTION 14: Transport information· **14.1 UN number or ID number**

· ADR, IMDG, IATA

UN1789

· **14.2 UN proper shipping name**

· ADR

1789 HYDROCHLORIC ACID

· IMDG, IATA

HYDROCHLORIC ACID solution

· **14.3 Transport hazard class(es)**

· ADR

· Class

8 (C1) Corrosive substances.

· Label

8

· IMDG, IATA

· Class

8 Corrosive substances.

· Label

8

· **14.4 Packing group**

· ADR, IMDG, IATA

II

· **14.5 Environmental hazards:**

· Marine pollutant:

No

· **14.6 Special precautions for user**

· Hazard identification number (Kemler code):

Warning: Corrosive substances.

80

· EMS Number:
